## 5. Emergency Procedures & Guest Safety

### In the Event of a Fire Alarm

#### 1. React Immediately:

- The fire alarm is a **continuous, loud sound**. Treat every activation as a genuine emergency.
- **DO NOT** stop to collect personal belongings.

#### 2. Follow the Escape Route:

- Feel your door with the back of your hand. If it is cool, open it slightly and check the hallway.
- If the hallway is clear, proceed immediately to your **nearest clearly marked fire exit**.
- Fire escape routes are highlighted on the **Evacuation Map** posted on the back of your bedroom door.
- **Use the stairs only.**
- If your door is warm or the hallway is blocked by smoke, stay in your room. Seal the bottom of the door with wet towels and wait by the window for the Fire Service.

#### 3. Proceed to the Assembly Point:

- Once outside, go straight to the designated Fire Assembly Point: **the main car park**.
- Please report to a member of staff (Christine, Brett, or any team member) so we can account for everyone.
- **DO NOT re-enter the hotel** until instructed by the Fire Service or management.

### Other Emergency Situations

Situation	Action Required
<b>Medical Emergency</b>	<b>Dial 999</b> immediately for the Ambulance Service, then <b>immediately notify the Front Desk</b> (in person) so we can assist the crew upon arrival.
<b>Security Concern</b>	If you notice any suspicious activity or have a security concern, please <b>immediately notify the Front Desk</b> (in person).
